Welcome word

The Young Swiss Society Senologist Subgroup was established by the Swiss Senology Society in 2018. Our primary purpose is to support young doctors (up to 45 years of age) willing to continue their training in any field of Senology.

The inaugural Masterclass took place in June 2022 at the Sitem-Insel in Bern. Around 50 young colleagues from various medical disciplines joined and found inspiration in our multidisciplinary program.

We have meticulously crafted an exciting course for you this summer. Let's seize this opportunity together to learn, collaborate and make meaningful impact in the field of Senology. Welcome aboard!

With warm regards of the scientific committee,

Swiss Society of Senology

Dr. Thanh Lam

PD Dr. Claudia Rauh
