

Title : “Breaking Boundaries in SCLC : From Biomarkers to Better Treatment”

Experts perspectives and case discussions

Introduction:

Small Cell Lung Cancer is moving fast , are we keeping up?

Join us for an interactive evening bringing together experts across pathology, surgery and medical oncology to discuss the latest advances in SCLC, from biomarkers and limited-stage disease to first-line and later-line treatment of extensive-stage disease. Expect practical insights, case-based discussion and plenty of opportunity for exchange with colleagues

Whether you join us on site at HUG or online, don't miss this opportunity to exchange with colleagues, earn CME credits, and enjoy a convivial aperitif to close the evening.

Wednesday 25 November 2026 - HUG
